<https://www.sharmaprashant.com.np/>

Innovative tech enthusiast with strong background in Dart and Flutter Development. Passionate about building clean, responsive, and user-friendly applications. Skilled in collaborating with teams, learning new technologies quickly, and delivering tasks on time. Eager to grow as a developer and contribute to impactful projects in a dynamic tech environment..

EXPERIENCE

Flutter Developer

Lalitpur, Kandepta

Nepatronix

Apr, 2025 - Present

- Built and shipped production-grade Flutter applications for both Android and iOS platforms.
- Event Solution (Play Store): Developed a full-featured multi-role event ticketing app with role-based access control (RBAC) supporting Admin, Employee, and User roles; implemented secure authentication, stall booking, event joining, hold stall, and a seamless checkout flow
- Innovator – Social Media (Play Store): Built a social feed with post creation, likes, reels comments, and AI-based content recommendations; implemented real-time messaging using WebSockets.
- Innovator – E-Learning (Play Store): Developed structured course modules with lesson playback, payment integration and enrollment flows integrated into the Innovator platform.
- Innovator – E-Commerce (Play Store): Implemented an electronics storefront with product listings, cart, and secure payment gateway integration and COD for end-to-end purchase flows.
- Innovator – KMS (Knowledge Management System, Play Store): Developed a school-focused module inside Innovator with multiple roles — teachers can view their salary, manage class activities, and mark student attendance; students can view their own attendance records and academic progress. Schools can track the teachers activity and attendance
- Dating App (In Progress – Personal Project): Independently designing and building a dating application with profile matching, swipe UI, and real-time chat; currently in active development.
- Integrated Google Maps SDK, Firebase Cloud Messaging (FCM) push notifications, and Bluetooth thermal printer communication across multiple apps.

Flutter Intern

Shankhamul, Kathmandu

Dynamic Technosoft

Jan, 2025 - Mar, 2025

- Developed and deployed UI components for the Academic ERP system using Flutter for cross-platform support
- Collaborated with UI/UX designers to implement responsive, multi-device designs; tested and debugged across Android and iOS targets.
- Integrated Flutter frontend with backend REST APIs for seamless data flow across ERP modules.
- Tested and debugged UI across multiple devices, ensuring optimal performance.
- Worked with the inventory management

EDUCATION

Bachelor in Computer Science and Information Technology

Lalitpur

Patan Multiple Campus

Apr, 2022 - Apr, 2026

Pursued a Bachelor's degree in Computer Science and Information Technology (BSc. CSIT) from Patan Multiple Campus, affiliated with Tribhuvan University. Gained hands-on knowledge in areas including object-oriented programming, web technologies, operating systems, computer networks, and software development methodologies.

PROJECTS

Event Solution :

- Developed an event ticket booking app with multi-tier authorization for different user roles (e.g., Admin, User, Employee)
- Multi-role event ticketing platform with RBAC for Admin, Employee, and User roles

- Built a responsive UI/UX using Flutter, ensuring smooth functionality across mobile platforms (iOS/Android). Deployed and tested the app, ensuring optimal performance and user experience.

Tech: *Flutter · Dart · RiverPod · REST API · RBAC*

https://play.google.com/store/apps/details?id=com.nepatronix.eventsolutions&pcampaignid=web_share

Innovator - Social Media

- Social feed with post creation, likes, comments, follow system, and AI-based recommendation integration
- Real-time messaging via WebSockets; push notifications via Firebase Cloud Messaging (FCM)

Tech: *Flutter · Dart · RiverPod · WebSocket · FCM · REST API*

https://play.google.com/store/apps/details?id=com.innovation.innovator&pcampaignid=web_share

Innovator - Elearning

- Structured course and lesson modules with video playback, progress tracking, and enrollment management
- Modular architecture allowing independent feature scaling within the Innovator platform

Tech: *Flutter · Dart · RiverPod · Khalti · REST API · FCM*

Innovator - Ecommerce

- Electronics storefront with product listings, cart, order management, and payment gateway integration
- Integrated Khalti for secure in-app payment processing

Tech: *Flutter · Dart · RiverPod · Khalti · REST API*

Innovator - KMS

- School-focused module inside Innovator with dedicated role-based views for teachers and students
- Student role: view personal attendance records, academic progress, and announcements
- Teacher role: view salary, manage class schedules, mark and review student attendance

Tech: *Flutter · Dart · RiverPod · REST API · Role-Based Views · FCM*

MBT Barcode Label Designer

- Mobile utility for generating and printing barcodes & QR codes via Bluetooth thermal printers
- Custom label format selector (size, layout); real-time Bluetooth communication with high reliability

Tech: *Flutter · Dart · Bluetooth / BLE · QR & Barcode*

https://play.google.com/store/apps/details?id=com.mbt.barcode_label_designer&pcampaignid=web_share

Academic ERP (Internship)

- Developed Flutter UI components for a comprehensive academic ERP covering course registration, grading, attendance, and inventory management
- Integrated frontend with backend APIs; ensured pixel-perfect responsive design across devices

Tech: *Flutter · Dart · REST API · Git*

Dating App (In Progress)

- Building a dating application with profile setup, swipe-based matching, and real-time chat
- Applying clean architecture patterns and RiverPod state management from scratch

Tech: *Flutter · Dart · RiverPod · Firebase*

SKILLS

Dart, Flutter, OOP Concepts, State Management (Riverpod, Getx), Clean Architecture, MVVM Pattern, Repository Pattern, Responsive Design, Adaptive UI, Firebase, FCM (Push Notifications), REST APIs, WebSocket, Bluetooth / BLE, Thermal Printer Integration, Barcode & QR Code Generation,, Local Notifications, Google Maps SDK, Geolocator, Geocoding, Location Permissions, Payment Gateway Integration, RBAC (Role-Based Access Control), Animation, Custom Paint, Shared Preferences, Hive, Secure Storage, Flutter Localization (l10n), Flavors, Git / Github

LANGUAGE

Nepali, English, Hindi
